IRONTRAP[®] Magnetic Filters

IRONTRAP[®]
Magnetic Filters

PROTECTOR
Protection Fluids

Areas Of Usage

Industrial– Factories and manufacturing facilities.

Commercial Facility– Office buildings, public buildings.

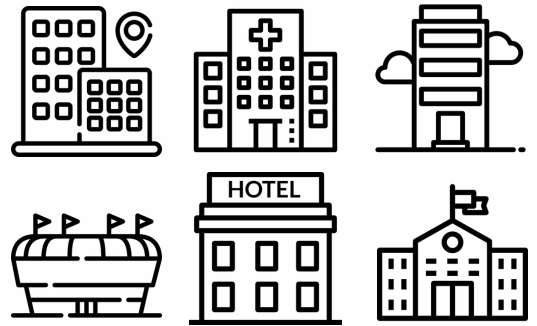

Housing– High-rise buildings, estates, apartments.

Health– Hospitals, Clinics

Liesure Facilities– Swimming pools, stadiums, gyms

Hospitality– Hotel, resorts, cinemas.

Education– Universities, colleges, and schools.

IRONTRAP® Magnetic Filters

Irontrap magnetic filters separate iron dust and magnetite from the system with strong neodymium magnet bars. It protects your system against unwanted formations and prolongs its life.

IronTrap cleaning fluids remove magnetite iron dust, buildup, and scale from the system. It extends the life of the system. Significantly reduces maintenance costs.

PROTECTOR Protection Fluids

Protector, with its strong inhibitor system protects against corrosion. It prevents limescale and scale accumulation. It ensures that the system efficiency is sustainable.

Clean → Protect → Sustain

Technical Measures

- PED 97/23/EC
- DESIGN: EN 13445
- MAX.P: 10 BAR
- TEMP: 3-100 C
- TEST P: 22.3 BAR
